BUILD YOUR STORE

SERVICE 01 · CAPABILITIES STATEMENT

DUHA MEDIA

First, we build it.

A Shopify store built from scratch, around your brand and your products. No templates.

01

WHY IT MATTERS

Plenty of local businesses have the hard part figured out. The product is proven, the regulars keep coming back, and word of mouth does its work. Then a new customer lands on the online store, and it doesn't measure up.

That gap is why Duha Media exists. We build the Shopify store your product has earned, then run the marketing that brings in customers who haven't found you yet.

We work with owner-operated businesses in Chicago that make something great, but whose online store and marketing don't show it yet. We stay with you, hand in hand, until your business is set up to succeed.

Your product is proven.
Your online store should be too.

THE BUILD, IN NUMBERS

$7K	~55	~30
Starting price for a build.	Hands-on hours per build.	Of those on design alone.

YOU OWN IT

From launch day, the store, the theme code and the domain belong to you.

NEXT STEP

Book a call to talk through your build.

WHAT'S INCLUDED

STRATEGY AND DESIGN

- **Discovery:** We talk through your business, your customers and your goals.
- **Research:** We study your competitors, your positioning and who is winning in your market.
- **Brand:** One meeting to set colors, typography and look.
- **Store design:** We study the best stores in your field, design your store screen by screen, and revise it with you until it's right.

DEVELOPMENT

- **Custom Shopify theme:** Written from scratch for your store, with no template underneath.
- **Our own build pipeline:** AI-assisted, so the coding moves faster. The design is still planned with you, screen by screen.

LAUNCH AND SALES CHANNELS

- **Shop sync:** Your store connects to TikTok Shop, Instagram Shop and Facebook Shop.
- **Launch:** We push it live, and the store is yours.

KEY DIFFERENTIATORS

NO TEMPLATES

Your store is designed and built from scratch, so it looks like your business and nobody else's.

BUILT BY A DEVELOPER

The person who designs your store writes its code, so what we design is what ships.

Then we grow it.

Marketing, run by the same team that built your store. Every plan includes the full toolkit.

02

WHY IT MATTERS

A new store doesn't sell itself. Someone has to bring people to it, and keep bringing them.

We start with paid ads that bring customers to your online store. Then we shift effort between tools based on what the numbers show.

If the budget is too small to scale paid ads, we put more into organic content and influencers.

You built the product. Our job is to put it in front of the people who haven't found you yet. Every plan comes with the full toolkit ready to go: ads, social content, creators, search and email. We use each tool when your store needs it, and we use it well.

You made something great. Now let's make sure the world knows.

EVERY MONTH

1 hr	**Planning call.** Up to an hour, usually less. We agree what to film, post and run.
3–4 hr	**Filming, in person.** Scripts and articles get written in the same session, so the month's content is ready when it ends.

HOW IT'S PAID

One of three plans, settled quarterly. Ad spend and influencer costs are paid by you, separately. Details on page 5.

NEXT STEP

Book a call to plan your marketing.

WHAT'S INCLUDED

PAID ADS

- **Meta ads:** Campaigns on Facebook and Instagram. This is where we start.
- **Campaign landing pages:** A page built for each campaign, so the ad and the store say the same thing.

ORGANIC SOCIAL AND INFLUENCERS

- **Social posting:** Content for Facebook, Instagram, Reels and TikTok, filmed with you each month.
- **Collaborations:** We scout, reach out and manage partnerships. Nothing is sent without your approval.

SEARCH, EMAIL AND PRINT

- **Google Business Profile:** Your listing on Google Search and Maps, with review growth and prompt replies.
- **SEO:** Showing up when people search for what you sell.
- **GEO:** Getting recommended when people ask AI tools like ChatGPT for what you sell.
- **Newsletter:** Sent through Shopify Email.
- **Flyers:** On-brand, on request.

KEY DIFFERENTIATORS

ONE PERSON ACCOUNTABLE

You deal with the person doing the work. No middlemen, no layers. Everything is done in-house.

SMALL ON PURPOSE

We cap at 7 clients, so every store gets the hours it needs.

LOCAL

Based in Chicago. We film in person and work with businesses in Chicago and the Chicagoland area.

Your project, start to finish.

Eight steps in two phases, so you always know what comes next. Marketing is optional.

THE PROCESS

PHASE 1 · BUILD YOUR STORE

1 — Discovery
We talk through your business, your customers and your goals.

2 — Research
We study your competitors, your positioning and who is winning in your market.

3 — Brand
One meeting to set your colors, typography and look.

4 — Design
We design every screen of the store and revise it with you until it's right.

PHASE 1 · BUILD, CONTINUED

5 — Build
We code the approved design into a custom theme, through our own AI-assisted build pipeline.

6 — Launch
We connect your shops and push the store live. It's yours.

PHASE 2 · GROW YOUR STORE (OPTIONAL)

7 — Marketing plan
Ads first, then whatever fits your store.

8 — Run and refine
We run the marketing and keep improving the store, including campaign landing pages. Ongoing.

PREFERRED TOOLS

A small, proven stack. The accounts are in your name.

Shopify · Instagram Shop · Facebook Shop · TikTok Shop · Meta Ads · Shopify Email · Microsoft Clarity

Product names are trademarks of their respective owners and are shown to identify the tools we work with.

Two jobs. Two ways to pay.

Building the store and growing it are priced differently, so each is clear on its own.

BUILD YOUR STORE

Builds start at

$7K

- A custom Shopify theme, written from scratch. No templates.
- About 55 hands-on hours, about 30 of them on design alone.
- Brand, design, build and launch, with revisions until it's right.
- Shop sync with TikTok Shop, Instagram Shop and Facebook Shop.
- The store, the theme code and the domain are yours from launch.

NEXT STEP

Book a call to talk through your build.

MARKETING PLAN

Three plans, settled quarterly. Every plan includes the full toolkit.

Standard — BEST FOR STEADY SALES

20% of online revenue or **30% of online profit**, your choice. Nothing upfront, so the fee moves with your sales.

FIRST QUARTER	AFTER THAT
20% or 30%	**Same rate**

Prepaid — BEST FOR A FIXED COST

A flat **$1,000** for the first quarter, then **$1,500** a quarter. No percentage on top, however much you sell.

FIRST QUARTER	AFTER THAT
$1,000 flat	**$1,500 a quarter**

Ramp-up — BEST FOR NEW STORES

10% of online revenue in the first quarter while the marketing gets going, then the Standard rate.

FIRST QUARTER	AFTER THAT
10% of revenue	**20% or 30%**

At $100K a year, every plan moves to a fixed rate. See below.

Ad spend and influencer costs are paid by you, separately. Online revenue is the total money taken through your online store, not counting refunds, chargebacks, shipping and losses. Online profit is gross profit: online revenue minus the cost of the products sold.

We build and grow your store for one reason: we want your business to succeed. Everything we charge is set up to help you grow, not hold you back.

AT $100,000 A YEAR

Every plan switches to a fixed rate once your online store reaches $100,000 a year. The rate is set for your store, based on the work it needs, and agreed in writing.

SWITCHING EARLY

When your quarterly results show you're on pace, we offer the switch early. It's your choice. If you wait, it's required once the revenue is reached.

THE AGREEMENT

Two-quarter terms that renew. Either side can cancel with notice before the next term. You own all content, ads and accounts. No guaranteed results.

CASE STUDY - ABU OUD

BUILD CASE STUDY

DUHA MEDIA

BRAND · DESIGN · CUSTOM SHOPIFY BUILD

The community trusts his oud. The store didn't show it.

WHY

Abu Oud's founder blends his own fragrances. He has a trained nose and sources raw material directly from Malaysia, Bangladesh, Thailand, Burma and beyond. His community knows him as the person to go to for the real, authentic thing. The online store didn't show it: about 12 products, pages buried behind layers of links, and imagery that undersold the product. The classic problem of an amazing product but poor execution.

HOW

We listened first. We learned how oud is sourced and blended, and watched how he talks to customers. We kept his logo and colors and organized the brand system around them. Then we redesigned the whole interface, over 30 hours on design alone, and built a custom Shopify theme from scratch.

WHAT

A new store at abuoud.net, mobile-first and easy to navigate. The full catalog is loading now, from about 12 products to 50 or more. The branding is still being refined with him, because it is his company.

WHAT'S NEXT

Organic content built around his expertise, influencer collaborations, SEO and a newsletter every two weeks.

A website is like a business card. It's worth nothing until you use it.

WHY THE MARKETING COMES NEXT

PRODUCTS LISTED

12 → 50+

The full catalog is loading now. The old store showed about 12 of his blends.

INTERFACE DESIGN

30h+

Hours on design alone, before a line of code. Built around his existing logo and colors.

TEMPLATES USED

Zero

A custom Shopify theme, built mobile-first. Pages that were buried behind layers of links are now easy to reach.

Straight answers.

The questions owners ask most, answered before you book a call.

How much does a build cost?
Builds start at $7K.

Do I own my store?
Yes. The store, the theme code and the domain are yours from launch.

Do you use templates?
No. Every store is designed and coded from scratch.

Who does the work?
The founder, in-house. No middlemen. We cap at 7 clients so every store gets the hours it needs.

Can I hire you for just the build?
Yes. The marketing steps are optional.

Do you use AI?
Yes, in our build pipeline, to code faster. The design is still planned and approved with you.

How is marketing priced?
Through one of three plans, settled quarterly. See page 5.

Who pays for ads?
You do. Ad spend, influencer costs and other marketing expenses are separate from our fees.

What happens at $100,000 a year?
Your plan switches to a fixed rate, set for your store based on the work it needs.

Do you guarantee results?
No. We watch the numbers and shift effort to what works.

How long is the marketing agreement?
Two-quarter terms that renew. Either side can cancel with notice before the next term.

Where are you based?
Chicago. We work with businesses in Chicago and United States at large.

WORK WITH US

One founder, no layers.

I'm Abdurrahman Choudhary, a Chicago developer and entrepreneur who started out freelancing websites and now builds and markets Shopify stores for local business owners. I do the work myself, which is why we cap at 7 clients.
